Respected Sir/Ma'am,

We request you to kindly forward this information to all the students of your esteemed institution.

"It's not about ideas, it's about making ideas happen."

We all struggle to make ideas happen. Stripping them bare and figuring out how to make them happen in the simplest way with the least effort from inception to realisation - that's the magic that will help you inch closer to success.

IIIT Allahabad Info Communication and Incubation Center alias **IIIC** is a Govt. of India approved incubation center set up at **IIIT Allahabad** under the initiative of Startup India and **Ministry of Electronics & Information Technology**.

IIIC is a one-stop platform for individuals with creative minds and innovating ideas to come up and fulfill their dreams and aspirations and become successful future entrepreneurs. **IIIC** is aimed to foster the entrepreneurial zeal both inside and outside of Allahabad by having incubates from every corner of the country.

The IIIT Allahabad Info Communication and Incubation Centre (**IIIC**) is offering you an opportunity, we hereby invite you for the **Ideation contest**, a selection under **pre-incubation program** and **full-incubation program** to be held on **13th August, 2018** whereby we will select startups for pre-incubation and full incubation.

We're seeking ideas which disrupt yet translate smoothly into a real business environment. Ideas that break stereotypes and dogmas, defy tradition and create meaningful impact in our society and the world at large.

The best and brightest among industry leaders and influencers of the startup space will be judging your ideas and their viability. The ones with best ideas will be converted into pre-incubates under IIITA Info Communication and Incubation Center(**IIIC**).

What's in store for you:

- Chance to get seed funding for winners of Ideation Contest.
- Exposure to industry leaders from various arenas (Venture Capitalists, Angel Investors, CEOs of leading companies)
- A shot at incubation and realising your true potential. The incubation centre has some unmatched and irresistible offerings, including:
 - Register for PhD and Masters by research program and get degrees for the R&D problem of your venture
 - Earn by working as Tutor cum Research Assistant, Teaching cum Research Fellowship and other part-time employment programs of the institute
 - Earn by taking highly specialized courses relevant to the venture, independently or in collaboration with IIIT-A faculty.
 - Get world-class developers of IIIT-A to work based on fee or equity during semesters and summers
 - Specialized MBA students also available to work based on fee or equity during semesters

and summers

- Research cum development internship program by IIIT-A to get manpower during summers
- Incubate R&D qualify as semester projects for students under the able mentorship of faculty
- No money? Option to pay for nearly everything by a very small equity alone.

What is the difference between pre-incubation and full-incubation?

Pre-incubation is a program to give some encouragement to youngest of entrepreneurs who may have nothing but an incomplete small idea that in the future can make a big enterprise. The pre-incubation program provides for a very small amount of seed funding to meet all emergent expenses and mentorship by experts to convert a small idea into a working and sellable prototype.

Full-incubation is a program where the highly skilled and qualified selection panel usually recruit incubates who are professionals with a strong grounding of the market, have a ready prototype and a market where some activity has already started and some feedback received. This gives an assurance that the product will work. After this selection procedure is on mark, **IIIC** in collaboration with **StartUp India** incubates the startups with funding of around 25 lacs.

Who's invited for pre-incubation and full-incubation?

Anybody with a business plan - whether you've a startup up and running, or a notebook with ideas scribbled on it. Submit your complete business plan - and you may just have changed the course of your life, and many others around you. The pre-incubation program is only for participants who have not yet registered a startup or startups less than 6 months.

Who's invited for the Ideation contest? School and college students (including postgraduate students) are eligible to apply.

Submit your business plans at: iiic.iiita.ac.in

Submission Portal Opens: July 20, 2018.

Deadline for submission of business plans: August 01, 2018.
