*Students (Agriculture)
Dean (Agriculture)*

Dear Sir,

Greetings from Dedicated Agri Services Pvt Ltd! We are a ground support service provider company and are Business Associates of AFC India Limited (Erstwhile Agricultural Finance Corporation of India Limited).

We are providing ground support services to financial institutions such as banks and insurance companies in the agricultural domain. We are looking forward to engage passed students of your esteemed University for training in the subject of Crop Insurance and the related ground support activities. We intend to train them on the subject with class room tutorials and on field assignments. Based on their individual qualifications and capacities we intend to offer them stipend in the range of INR 60K - 360K per annum.

As a precursor to our vision for this above arrangement, we would like to share with you that there is abundant requirement of manpower for the aforesaid ground support services in the agricultural insurance domain. However at the same time we observe that there are a number of passed students who are of average academic credentials and hence out of employment in their chosen field of study.

Unfortunately the said activities are being offered to candidates who are not students of agriculture and who sometimes fall short of delivering the service as desired.

We feel with our vision and your support we can design a sustainable career path for these passed students of agriculture who are unemployed and also serve the industry in true spirit and deed.

We are based out of Mumbai and would like to meet you in person in the coming week. Please do share your convenient date and time to discuss on the above.

Thanks and regards,
Mangesh Desai
