Dear Students,

Second wave of Covid-19 pandemic situation is exponentially increasing. In order to keep everybody safe, the Government has issued the order to conduct online classes for the students.

Our teachers of GRI are very committed to impart knowledge through online mode. I urge all the students to attend the classes without fail and study well.

I hope all the Research Scholars are working hard on their research objectives. I request all the scholars to write research papers based on the comments and suggestions of the Research Supervisor and the Doctoral Committee member. I hope that you all will utilize the period of lockdown effectively to carry out your research work/thesis writing and make use of the time fruitfully. I suggest the scholars use this time to get in touch with the Supervisor through Mail / Whatsapp / Messages to seek their advice and guidance.

I request all the students to wear the mask, keep social distancing, use sanitizer and avoid going out unnecessarily.

Let us join together to prevent the spread of Covid-19 and work for the well being of all.

Your cooperation is highly appreciated.

VICE-CHANCELLOR
