## Report of Action Taken on Curriculum Feedback (AY 2021-2022)

In response to feedback analysis and directives from authorities, we have taken various actions to enhance and reshape the curriculum for our students' improvement

### Stakeholders Feedback Report:

- Students (3.69) and alumni (3.71) appreciated the curriculum's relevance and employability potential.
- Employers (3.50) rated soft skills highly but have mentioned the need for improvement in technical knowledge.

**Key Concerns:** Greater emphasis on academic support and extracurricular activities to develop practical and soft skills.

### Action Taken:

- ✓ Expanded elective options across various departments, allowing students to tailor their academic paths according to their career goals and interests.
- ✓ Interdisciplinary courses were introduced to help students combine knowledge from different fields, such as technology, business, and humanities.
- ✓ Established Departmental Course Committees (DCC) to conduct annual reviews of course content, ensuring that the curriculum reflects the latest advancements in each field. Faculty members collaborate with industry experts and academic peers to update materials and integrate cutting-edge research and industry trends.
- ✓ Promoted the use of Online Educational Resources, which are freely accessible online, ensuring that students can access relevant, current, and inclusive learning materials. This helped reduce the barriers to academic resources for all students.
